

Ananya Deshmukh

Computer Science and Engineering, IIT Kanpur | ananya.d@iitk.ac.in | +91 98765 43210 | github.com/ananyad

ACADEMIC QUALIFICATIONS

2026 B.Tech, Computer Science and Engineering, Indian Institute of Technology Kanpur CPI 8.42/10.0

2022 Intermediate/+2, CBSE, Pune 94.20%

2020 Matriculation, CBSE, Pune 95.80%

SCHOLASTIC ACHIEVEMENTS

- All India Rank 1284 in JEE Advanced 2022
- Academic Excellence Award, IIT Kanpur, 2024
- Max rating 1712 (Expert) on Codeforces
- Finalist, Inter-IIT Tech Meet software track

WORK EXPERIENCE

Software Development Intern, Sprinklr, Gurugram (May'25 - Jul'25)

- Worked on the ingestion service for the social listening platform alongside the platform team
- Rewrote the batch deduplication stage as a streaming operator over Kafka, cutting end-to-end ingestion latency from 4.1s to 900ms across 12M daily events in production
- Added consumer-lag alerting and a replay path, which the on-call rotation adopted after the migration

Backend Engineering Intern, Tessellate Systems (Dec'24 - Jan'25)

- Built REST endpoints for the merchant onboarding flow using FastAPI and PostgreSQL
- Migrated the reporting job to a task queue so the nightly run stopped blocking the web workers

KEY PROJECTS

Coalesce · a log-structured key-value store | Self Project (Jan'25 - Apr'25)

- Designed an LSM-tree storage engine in C++20 with a write-ahead log, tiered compaction and a bloom-filter read path
- Benchmarked against LevelDB on a 40M-key workload, reaching 1.8x write throughput at comparable p99 read latency
- Open-sourced the engine with a fuzzing harness; the repository has been forked by other course teams

Distributed Consensus Visualiser | CS425 Course Project | Prof. R. Iyer (Aug'24 - Nov'24)

- Implemented Raft leader election and log replication over a simulated lossy network
- Built a web front end that steps through the replicated log so the failure modes can be inspected

POSITIONS OF RESPONSIBILITY

Coordinator, Programming Club, Students' Gymkhana, IIT Kanpur (Apr'24 - Mar'25)

- Ran the weekly contest series and the summer mentorship track for 180 first-year students

TECHNICAL SKILLS

C++, Python, Go, PostgreSQL, Kafka, Docker, gRPC

RELEVANT COURSES

Operating Systems, Computer Networks, Distributed Systems, Database Systems, Compilers

EXTRA-CURRICULAR ACTIVITIES

- Completed the Coursera Machine Learning specialization certificate
- Volunteer, campus open-source install fest
